Liability Release and Assumption of Risk

I, the undersigned, hereby affirm that I have been advised and informed of the inherent hazards of scuba and skin diving. By my signature below I acknowledge having read and hereby agree to the following liability release and assumption of risk.

As consideration for being allowed to enroll in diver training activities, I assume all risks, whether foreseen or unforeseen, in connection with those activities, for any harm, injury or damage to me while I am enrolled.

I acknowledge that certain hazards inherent to scuba diving may expose me to risk of serious accident or injury. I acknowledge that scuba diving and skin diving cause physical strain or exertion only experienced in diving. I assume all risk for, and will not hold the Released Parties (as defined below) responsible for, any injuries, including injuries due to heart attack, panic, hyperventilation or other injuries caused by physical strain and exertion or accidental injury.

I understand that there is a risk of decompression illness, embolism or other hyperbaric injuries that require treatment in a recompression chamber. I further understand that the diving trips, which are necessary for training and for certification, may be conducted at dive sites that are remote in time, distance, or both, from such a recompression chamber. Despite the possible lack of a recompression chamber near the dive site, I still choose to proceed with such instructional dives.

This Liability Release and Assumption of Risk (“Release”) applies to all diving activities in which I choose to participate as a part of Aquatic Ventures LLC diver training course. These diving activities and instruction may include, but are not limited to, navigation, night, deep, altitude, boat, drift, drysuit, wreck, multilevel, search

and recovery, naturalist, and photography dives. This Release applies to all instructors, certified assistants, divemasters, employees, agents and assigns of Aquatic Ventures, through which such training activities, as identified above, are conducted, and the training agencies SDI, TDI, NASE, PADI and NAUI.

I understand and agree that neither my instructor(s), assistant instructors, divemasters, Aquatic Ventures LLC and/or the named party through which I receive my instruction as named above; nor SDI, TDI, NASE, PADI and NAUI, nor any of their respective employees, officers, agents or assigns, (“Released Parties”) may be held liable or responsible in any way for any injury, death, other damages to me or my family, heirs, or assigns that may occur as a result of my participation in these diving activities or as a result of the negligence of any party, including the Released Parties.

I am aware that any items uploaded to the Aquatic Ventures website become property of Aquatic Ventures, and may be used in advertisements.

I further release the Released Parties from any claim or lawsuit by me, my family, estate, heirs, or assigns, arising out of my enrollment and participation in these activities including both claims arising during the activities or after I receive my certifications. I am of lawful age and legally competent to sign this Release, or I have the written consent of my parent or guardian. I hereby agree that this Release will be effective and valid for all diving activities as defined above and is a valid and legally binding obligation.

Diver Medical | Participant Questionnaire

Recreational scuba diving and freediving requires good physical and mental health. There are a few medical conditions which can be hazardous while diving, listed below. Those who have, or are predisposed to, any of these conditions, should be evaluated by a physician. This Diver Medical Participant Questionnaire provides a basis to determine if you should seek out that evaluation. If you have any concerns about your diving fitness not represented on this form, consult with your physician before diving. If you are feeling ill, avoid diving. If you think you may have a contagious disease, protect yourself and others by not participating in dive training and/or dive activities. References to "diving" on this form encompass both recreational scuba diving and freediving. This form is principally designed as an initial medical screen for new divers, but is also appropriate for divers taking continuing education. For your safety, and that of others who may dive with you, answer all questions honestly.

Directions

Complete this questionnaire as a prerequisite to a recreational scuba diving or freediving course.

Note to women: If you are pregnant, or attempting to become pregnant, *do not dive*.

By this statement you acknowledge your understanding of established safe diving practices intended to increase your safety. You must sign this acknowledgment as proof you are aware of these practices. Read and understand the statement prior to signing it. If you are under the age of 18, this form must also be signed by a parent or guardian.

I, the undersigned, understand the following:

The Six Rules

- Breathe continuously while on scuba:** Do not skip breathe or hold your breath. Do not hyperventilate when breath-hold diving. Avoid overexertion while in and under water.
- Equalize early and often while descending:** Never go deeper than you can comfortably equalize.
- Ascend slowly:** Stay well within your dive computer's ascent rate and under no circumstances come up faster than 10 m/30 ft per minute. Always spend the last three to five minutes of every dive between 3-6 m/10-20 ft.
- Continuously monitor depth, time and pressure:** Stay well within your planned limits for each. Establish a Minimum Gas Reserve (MGR — the point at which you *must* begin ascending) and stay well within the remaining Usable Gas.
- Do not overweight yourself:** Always use the least weight possible. Check your buoyancy at the end of every dive by ensuring you can hover, motionless, at safety-stop depth with no air in your BC. Always establish positive buoyancy upon reaching the surface by at least partially inflating your BC.
- Dive like a fish (and not like an ape):** Strive to maintain a near-horizontal body position under water while swimming and resting. Avoid standing, kneeling or sitting on the bottom.

Additionally:

- Maintain good mental and physical fitness for diving. Do not dive when under the influence of alcohol or drugs.
- Stay within the limits of your training and experience. Maintain proficiency through continuing education or simply diving actively. Seek refresher training after periods of inactivity.
- Use complete, safe and familiar equipment. Have all equipment inspected and serviced according to manufacturer recommendations. Inspect equipment for correct fit and function prior to each dive.
- When appropriate, use a boat, float or other surface support.
- Obtain an orientation to unfamiliar dive sites.
- Listen carefully to briefings. Follow the instructions of dive supervisors.
- Monitor dive conditions. If they deteriorate, postpone diving or select an alternate site.

- Plan and make dives as a team. Go over communications, procedures for reuniting in case of separation and emergency procedures.
- Obey all local diving laws and regulations, including fish-and-game and dive-flag laws.

Student Statement

- I realize there are certain inherent hazards in diving including, but not limited to, drowning, decompression illness and lung expansion injuries, including air embolism. I understand there are other hazards I have been made aware of from my training. I further understand a recompression chamber and medical assistance may not always be available at all locations I choose to dive in the future. I further understand that correct use of any dive table or dive computer does not eliminate the risk of decompression illness (DCI). I further understand that alcohol and drug use while diving can result in death.
- I understand the training requirements for this course and have successfully completed all certification requirements. I am adequately prepared to dive in areas and under conditions similar to those in which I was trained. I realize that additional training is required for specialty diving activities, in other geographic areas, and after periods of inactivity that exceed six months. I know that I must abide by Safe Diving Practices as outlined here, and that failure to do so may result in serious injury or death. I understand that my personal safety is my responsibility and not that of anyone else. At no time will I dive with questionable equipment or conduct any dive without complete equipment.
- My scuba certification cards reflect that I have received training in the use of scuba. Should I neglect to maintain these skills, I know that I must receive refresher training from a certified Instructor to bring my skills to a level where I am prepared for safe diving. I will exercise reasonable care in my diving and in the selection, use, and maintenance of my equipment. In consideration of certification, I confirm that I have received training to the level indicated upon my certification card.
- I understand and agree that neither my instructor(s), assistant instructors, divemasters nor Aquatic Ventures LLC may be held liable in any way for any occurrence in connection with my future diving which may result in damage to me, my family, heirs or assigns. I agree to save and hold harmless said named parties from any claim by me, my family, estate, heirs and assigns arising out of my participation in scuba or skin diving. I have read and by way of my signature below confirm that I understand this affirmation and release. I further state that I am of lawful age and legally competent to sign this affirmation and release.

If the participant is under the age of 18, then the parent or guardian must sign this contract and agree to be legally bound by it and furthermore be legally responsible for the minor participant, including being responsible for all damage, injury or death which may occur as a result of the minor's participation in diving activities. The parent or guardian's hereby agrees to be fully responsibility to the released parties for any damage, injury or death caused by the minor, including actions brought by the minor, for any damages whatsoever.

Rental Agreement • Page 2

This page is Page 2 of a two-page document. It must be completed and signed by the renter to be in force.

1. The renter shall keep and maintain the rented equipment during the terms of the rental at his/her own cost and expense. He/She shall keep the equipment in a good state of repair, normal wear and tear excepted.
2. The renter shall pay Aquatic Ventures LLC full compensation for replacement and/or repair of any equipment which is not returned because it was lost or stolen or any equipment which is damaged and in need of major repair to put it into the same condition it was in at the time of rental, normal wear and tear excepted. Aquatic Ventures's invoice for replacement or repair is conclusive as to the amount renter shall pay under this paragraph for repair or replacement.
3. The renter indemnifies and holds Aquatic Ventures harmless for all injuries or damage

of any kind for repossession and for all consequential and special damages for any claimed breach of warranty.

4. The renter shall pay all reasonable attorney and other fees, the expenses and costs incurred by Aquatic Ventures in protection its rights under this rental agreement and for any action taken Aquatic Ventures to collect any amounts due Aquatic Ventures under this rental agreement.
5. The renter agrees not to allow any person other than him/herself to use the equipment listed on Page 1.
6. The renter, on behalf or him/herself, his/her heirs or assigns, to hold Aquatic Ventures harmless for any loss, damage and/or injuries the renter may suffer while using the equipment listed here.
7. These terms are accepted by the renter upon delivery of the terms to the renter or the agent or other representative of renter.
